RECEIVED

AUG 19 2008

Dear Lori:

We've used your company for several years, and have had the real pleasure of working with Jonathan Edwards.

As you know, for a while it was hot and heavy ... and then our property opportunities disappeared and so it went really slow. And now – great news! – it looks like it's going to be hot and heavy again.

So why am I writing? Because no matter what phase we're in, I call Jonathan and immediately he's on it, and he remembers everything we've considered and talked about previously! He always has 12 helpful suggestions and things to consider.

I just can't praise Jonathan enough, and we're just so pleased that we're working with him (and your company). I just wanted to let you know that it's a real treat to have his advice and ideas as we move forward. Jonathan really, really contributes and helps us do what we want to do.

Amazing how he just picks it up again and races off with us! I never worry about a misstep with him on our team.

Sincerely,

*Gregg T. Atkins*
